

3 OPTIONS PROVIDED IN BONUS MEASURE

Adjusted Service Certificates, Vocational Training and Help in Buying Farm

MAXIMUM FIXED AT \$625

Washington, Aug. 31.—As amended by the Senate, the Soldiers' Bonus Bill would become effective January 1, 1923, and would provide three optional plans for veterans of the World War other than those whose adjusted service credit would not exceed \$50. These would be paid in cash. The options are:

- Adjusted service certificates, payable in twenty years or sooner at death and containing loan provisions at the rate of \$1.75 a day up to a total of 140 per cent of the adjusted service credit.
- Aid in purchasing a farm or home, the total amount to range from 100 per cent of the adjusted service credit to 140 per cent of the adjusted service credit, if the payment were made in 1928 or thereafter.
- Adjusted service pay or adjusted service credit to be figured on the basis of \$1 a day for domestic service and \$1.25 a day for foreign service, less the \$50 paid at discharge. But in no event could the amount of the credit of the veteran who performed no overseas service exceed \$500 and the amount of the credit of the veteran who performed any overseas service exceed \$625.

Adjusted Service Certificates

Adjusted service certificates would have a face value equal to the sum of the adjusted service credit of the veteran increased by 25 per cent plus interest thereon for each year, compounded annually.

Until January 1, 1926, any national bank or any bank or trust company incorporated under the laws of any State, territory, possession or the District of Columbia, would be authorized to loan to any veteran upon his promissory note, secured by his adjusted service certificate, any amount that in excess of 50 per cent of the total of the adjusted service credit plus interest thereon from the date of the certificate to the date of the loan, at the rate of 4 1/2 per cent a year.

Should the veteran fail to pay the principal and interest of the loan within six months after its maturity, the government would pay to the bank the amount of such principal and interest and take over the certificate. This would be repeated to the veteran at any time prior to its maturity upon receipt from him of the amount paid by the Government to the bank plus interest at that amount at the rate of 4 1/2 per cent a year, compounded annually.

Payment in Event of Death

If a veteran died before the maturity of the loan, the government would pay to the bank the principal and interest and to the beneficiary named by the veteran or the estate of the veteran, the face value of the certificate less the amount paid to the bank. After January 1, 1926, veterans holding certificates could make direct application through postmasters for government loans.

If such loan were made at any time, not more than three years after the date of certificate, it could not exceed 50 per cent of the sum of the adjusted service credit of the veteran plus interest at 4 1/2 per cent from the date of the certificate to the date of the loan.

If the loan were made at any time more than three years after and not more than six years after the date of the certificate, the sum could not exceed 85 per cent of the adjusted service credit, plus interest at 4 1/2 per cent from the date of the certificate to the date of the loan.

If the loan were made at any time more than six years after the date of the certificate, the sum could not exceed 70 per cent of the adjusted service credit increased by 25 per cent plus interest at 4 1/2 per cent from the date of the certificate to the date of the loan.

Repayment of Loans

The veteran would repay the loan upon an amortization plan based on a fixed number of annual installments sufficient to cover interest on the unpaid principal at the rate of 4 1/2 per cent and such amount of the principal as would extinguish the loan within an agreed period not exceeding the life of the certificate.

If a veteran failed to make any payment when due, the Secretary of the Treasury, at any time before the maturity of the certificate, would suspend the note and restore the certificate to the veteran upon receipt of all installments in arrears, together with interest at 4 1/2 per cent compounded annually, upon each such installment from the time when due.

Land Aid Option

The land settlement act option of the House bill has been stricken out and substituted. Under that act, veterans would have preference in employment on reclamation projects and in obtaining homesteads on land reclaimed. These would be reported, however, to pay for such homesteads out further Government aid on the same footing as other homesteaders.

Settlement would be open to all veterans of the World War, the Spanish-American War and the Philippine Insurrection, irrespective of whether they had received any compensation from the Government under the Bonus Bill or other legislation.

CHICAGO WOMAN BLAMED FOR HUSBAND'S SUICIDE

Refusal to Leave Work in Life Insurance Believed Cause of Tragedy

Chicago, Aug. 31.—A Coroner's jury today returned a verdict that W. W. Talcott, whose body was taken from Lake Michigan yesterday, had committed suicide while temporarily insane. The widow, Mrs. Shirley Talcott, was present, but did not testify. She asked to be excused.

A. J. Moore, self-styled "home healer" among whose followers Mrs. Talcott had been enrolled, did not appear to testify. Talcott's police believe, disowned her for unconvincing efforts to induce her wife to give up her work at Moore's life insurance.

Talcott disappeared a week ago and is generally believed to have been the man who leaped from an excursion steamer. In his clothing the police found bricks with which he had weighed his coat, and a number of letters, including some from his wife protesting her love for him, but declaring she could not give up the principles for which she was studying and working, presumably under Moore's instruction.

It was Talcott who instituted proceedings recently against Moore, who was fined \$100 on a charge of obtaining money from women followers by deception.

FIRST ARREST MADE IN HERRIN MASSACRE

Otis Clark, a Union Coal Miner, is Charged With Murder

Marion, Ill., Aug. 31.—(By A. P.)—Otis Clark, a union coal miner, the first man indicted by the special Grand Jury investigating the Herrin massacre in which twenty-two persons were killed, surrendered at noon today. He is charged with the murder of C. K. McDowell, superintendent of the Lester strip mine, where the massacre occurred.

Clark surrendered after a conference with officials of the Illinois Mine Workers, who immediately arranged to furnish both industrial and legal representation, of Illinois, and other officials conducting the inquiry, however, ordered Clark placed in jail.

ACCEPT BELGIUM'S REPARATIONS PLAN

German Six-Months Treasury Bills to Be Taken in Lieu of Cash

FRENCH DELEGATE AGREES

Paris, Aug. 31.—The Reparations Commission late today unanimously accepted the Belgian compromise on the German moratorium proposition. M. Dubois, the French member of the commission, voted with his colleagues after a long interview between sessions with Premier Poincare.

The decision of the commission was reached by the British, Belgian and Italian members under instructions from their respective Governments regardless of the French Government's attitude.

Under this plan, brought forward by M. Delacroix, the Belgian member of the commission, Belgium, in lieu of the remaining cash payments from Germany this year, to which she is entitled under a priority agreement, would accept treasury bills from the German Government, payable in six months. These bills should total more than 250,000,000 gold marks and Germany would offer further guarantees for their redemption when due.

The commission rejected the motion of Sir John Bradbury, of England, for a moratorium without further guarantees. England alone voted for the motion. France and Belgium voted against it and Italy abstained from voting.

The commission accepted the last-minute proposals of the German Government providing for delivery of coal and wood in 1922-23 under contracts for delivery to be made under an arrangement between the German Government and leading industrialists, including Hugo Stinnes.

Insurance Man Dies

Carl W. Riddick, of Lawlerton, maintained a lead of 500 over Attorney General Wellington D. Rankin, of Helms, for the Republican nomination for United States Senator. The vote stood: Riddick, 14,704; Rankin, 14,204. Three other candidates trailed. The count for the Democratic nomination for Senator, with 836 precincts reported, showed Burton K. Wheeler with a vote greater than that of his three opponents.

N. Y. TUBE TRAINS CRASH; FORTY PASSENGERS HURT

Accident Occurs on Kearny Meadows in Dense Fog

Newark, N. J., Aug. 31.—(By A. P.)—Forty persons were injured this morning in a rear-end collision between two tube trains of the Hudson and Manhattan Railroad. Officials of the railroad said the accident probably was due to the heavy fog which prevailed at the time.

The accident occurred on the Kearny meadows about a mile East of the Manhattan Transfer, both trains having left Newark bound for New York. The first train had reached a point near Jacobus avenue, Kearny, when the motorman observed a stop signal. Seven minutes later the motorman of the second train observed the same signal and proceeded slowly, but because of a heavy fog which hung over the meadows could not see the train ahead until it was too late.

Three cars buckled and most of the injured were conveyed in relief trains to this city and Jersey City, where they were removed in ambulances to hospitals. It was said that not more than eight or ten suffered more than minor hurts and that none was fatally injured.

Those brought to the Newark City Hospital were John Burke, motorman of the train that crashed into the one ahead; M. C. Hill, of Hillside; William F. Markle, Trenton; Abraham Lewitz, Newark; Fred Banks, East Newark; Isaac Kelly, Boston, Pa.; Simon Hellum, Trenton, and C. P. Mann, Beverly, N. J. Identification had not been made of one man who was unconscious when taken to the hospital.

As Spotless as Your Own Kitchen

"Cleanliness first"—the motto of every good housewife is likewise the watchword at the Abbotts milk plant—on the farm where Abbotts milk is produced—and at Abbotts country receiving stations.

Here are some of the precautions we take at our plant at 31st and Chestnut Streets to insure the purity of the milk you drink:

Freshly-laundered, white uniforms are issued to our workers each morning.

Every Abbotts employe undergoes medical examination at regular intervals.

Sanitary drinking fountains are provided throughout the plant.

Floors are kept dampened to avoid any possibility of dust.

Scrupulous care is exercised to keep absolutely sterile the pasteurizers, coolers and filling and bottle capping machinery.

Then, too, the big, new bottle washing machines insure crystal clear bottles, absolutely sterile.

This extreme care, part of the every day Abbotts process of producing milk for your table, keeps Abbotts milk absolutely pure and healthful.

The man on the Abbotts wagon will take your order for service in Philadelphia or any of the cities listed below—or drop us a post card—or telephone Baring 0205.
